## **AccuFund Partners with Public Sector Group and NWBS Consulting, Value-Added Resellers of Accounting Systems to Government and Non- Profits**

*AccuFund Broadens Market Reach for its AccuFund Accounting Suite with Addition of Two  
Top Technology Resellers to its Growing List of Business Partners*

**Needham, MA – August 5, 2009** – AccuFund, Inc., provider of financial reporting and accounting software for non-profit, municipal and government organizations, today announced its partnerships with Public Sector Group LLC and NWBS Consulting, two valued-added resellers (VARs) of accounting and financial management systems to the public and non-profit sectors. These new business partners will expand market reach for the AccuFund Accounting Suite in the Midwestern and Northwestern United States, while providing their clients with AccuFund’s powerful accounting functionality and comprehensive customer support.

“We were looking for an accounting solution for our clients that is nimbler than other products in the market yet cost-effective” stated Scott Walker, President, Public Sector Group LLC. “With AccuFund, clients get value for their dollar while obtaining robust features and a wide selection of modules. The AccuFund Accounting Suite is not cookie-cutter — it’s tailored to the individual customer’s needs and can meet the vastly different requirements of government agencies and non-profits.”

“AccuFund offers both the accounting features and the customer focus our clients are looking for,” added Kim Soriano, director of business services at NWBS Consulting. “Clients get the advantage of having a local technology and market expert in partnership with an accounting software company that responds to their needs. I don’t see how organizations could go with any other vendor.”

“Public Sector Group and NWBS Consulting are well-versed in the accounting requirements of government and non-profit agencies, and they have extensive experience working with clients in these markets to resolve accounting issues,” stated Peter Stam, president of AccuFund, Inc. “These new business partners join a growing list of premier technology providers with whom we have engaged to deliver our flexible accounting solution and valuable client service to government and non-profits.”

All AccuFund reseller partners receive extensive training on each component in the AccuFund Accounting Suite and must maintain proficiency by attending annual training programs. Each reseller may choose specific areas of competency on which to be certified and must maintain certification through regular participation in AccuFund consultant training programs.

#### **About Public Sector Group LLC**

The Public Sector Group provides fund-based accounting and financial consulting services to government and non-profit entities, assisting with financial reporting, membership management and process improvement needs. Its clients include state and local government agencies, member associations, health and human service organizations, and public and private philanthropies. The company serves organizations across the United States, focusing mainly on Indiana, Illinois and other Midwestern states. For more information, contact Public Sector Group at [info@publicsectorllc.com](mailto:info@publicsectorllc.com).

#### **About NWBS Consulting**

NWBS Consulting provides accounting systems that serve government, public and not-for-profit organizations concerned with grants management. Its clients include school districts, health and human services organizations, and Indian tribal governments. The company serves the northwestern United States, specifically Alaska, Washington, Oregon, and Idaho, as well as Canada. For more information, contact Kim Soriano at 877-892-5702 or [kim@nwbsconsulting.com](mailto:kim@nwbsconsulting.com).

#### **About AccuFund**

AccuFund, Inc. provides scalable accounting software systems to nonprofit organizations and government agencies. The AccuFund Accounting Suite fulfills the market's need for an accounting solution that is more sophisticated than off-the-shelf products, yet much less expensive, complex and difficult to use than the higher end offerings. AccuFund's products are available exclusively through Value-Added Resellers (VARs) located throughout the United States. The VARs provide AccuFund's customers with cost-effective onsite training and installation assistance.
