AccuFund Partners with F9 to Expand Financial Reporting Options in the AccuFund Accounting Suite

By Integrating the F9 Professional Financial Reporting Tool, AccuFund Allows Users to Create Flexible and Customizable Financial Reports in Microsoft Excel

Needham, MA – March 12, 2010 – AccuFund, Inc., provider of financial reporting and accounting software for non-profit, municipal and government organizations, today announced a partnership with F9 to integrate F9 Professional Version 5, an Excel-based financial reporting tool, with the AccuFund Accounting Suite. With F9 Professional Version 5, AccuFund users will have an easy-to-use financial reporting option that dynamically links to the AccuFund General Ledger (GL) and allows them to create flexible, customizable reports in Microsoft Excel.

“F9 Professional Version 5 gives our customers who are more comfortable working in Excel the flexibility of having another financial reporting option that directly links to their most current information without requiring exporting or manual entries,” states Peter Stam, president of AccuFund, Inc. “F9 Professional Version 5 for AccuFund also provides users with the ability to create graphical presentations of their data without re-keying the source data.”

“We are very pleased to welcome AccuFund, a leading provider of software for non-profit and government agencies, to our list of strategic partners,” states Wissam Barakat, vice president of sales for F9. “F9 offers a powerful and flexible reporting option to maximize the AccuFund Accounting Suite. Microsoft Excel users already know how valuable spreadsheets are for financial reporting. F9 leverages that value by delivering AccuFund GL data directly to Microsoft Excel, ensuring all numbers are accurate, timely and complete.”

F9 Professional Version 5 provides an unparalleled package of features and capabilities, such as flexible cell-based reporting, consolidation, drill down, multiple date ranges, multiple currencies, lists of account segments, report analysis and Excel Forms.

Utilizing enhancements to the Excel 2007 user interface, new Task Panes in AccuFund allow users to interact with F9 directly from the Excel spreadsheet, enabling faster output and reporting results. New reporting controls display in a drop-down format for quick selection of filters. Improved toolsets provide enhanced Analyze and Zero Suppress functionality.

New data analysis and visualization tools are available to help users analyze information, spot trends and access organization or agency information more quickly and easily.

AccuFund customers can learn how to maximize the usability of F9 Version 5 by taking a comprehensive Quick tour and through online help.
